

VORTEXHEALING® TRAININGS

(June 14, 2018)

VortexHealing® Foundational Training Level

VortexHealing® Foundational Training (5 Days) *No prerequisite required.*

You undergo an intense light acceleration, which evolves your energy system and enables you to receive the Vortex Wheel (by transmission). With the Vortex Wheel you will be able to:

- Channel 49 different forms of Divine Vortex Energy. Each form of Vortex has unique properties and performs a unique function. Some of these forms are designed to energize and move physical, emotional and karmic "stuff", some forms are more for nurturing, one form is for grounding, another is for burning out infections, etc. You can choose the form you wish to channel, or ask divine intelligence to choose, which will simultaneously send a different Vortex Energy—or a combination of energies—to different areas of the system, according to what is needed.
- Channel Merlin's Healing Essence, which bridges in Merlin's divine healing consciousness, which transforms directly through consciousness and matter.
- Clear "karma knots" and their issues from the karmic body; release emotional and mental imprinting from the emotional and mental bodies; energize, harmonize and create deep healing on the physical body.
- Recreate your Grounding Cord, which grounds you and strengthens you. Everyone is born with a grounding cord, but in the West, almost everyone loses it by the time they are 4 years old.
- Work with both the vital and divine webs of creation, which manifest our physical body and maintain it. Energize the body (or specific areas) through these webs, as well as fix broken web-lines.
- Energize, clear, and harmonize the acupuncture meridians.
- Learn how to energize and bring focus to the 3rd eye.
- Do VortexHealing at a distance.
- Clear physical spaces of negative energy (as well as ghosts) in less than a minute.
- Learn how to get information from Merlin, the Divine Source of VortexHealing.
- Learn meditations for opening and deepening the spiritual heart.
- Learn a detailed overview of how we hold our karmic material and how our energy system is constructed.

In addition to the general karmic acceleration and healing effects of receiving the transmission, you will receive a lot of direct healing work, both from other students and in exercises for self-healing.

Clearing the Kundalini Channel (3 or 4 days)

Prerequisite: Foundational Training.

The focus of the class is to clean and evolve the kundalini channel (through which the kundalini energy runs), which gets quite gummed up, especially near the base of the spine. You receive a transmission specifically designed to clean out the kind of debris that blocks the kundalini channel (which can be used for yourself or others). This debris can get almost tar-like in consistency.

The kundalini energy, aside from its uses as a vehicle for divine energy and for opening the upper chakras, is actually a core physical energy that feeds and strengthens the entire nervous system and body, as well as all the chakras (which also energize all the organs and all body systems). An open kundalini channel allows the kundalini to flow better, creating a much stronger and healthier physical body that is both more energized and more relaxed. This **won't** be yoga-kundalini type class, where the breath is used to try to crank up the kundalini. When the channel is open, the kundalini rises naturally and gently. Conversely, when the channel is blocked and the energy is forced up the channel with intense kundalini-breathing exercises, strong disturbing symptoms can result. Students who have cleared their channel report both increased energy and a deeper sense of peace, both effects of the strengthening and smoothing out of the nervous system. In addition, for at least awhile after the channel is cleared, some students report a sense of oceanic expansion. Everyone's kundalini channel should be clear by the end of the last day of class. In addition, there is a deep bridging of divinity into the core of the kundalini energy, evolving it and activating the core of the nadi system there. When there is a 4th day, the 'plug' at the bottom of the kundalini channel is cleared, which allows more 5th dimensional energy to flow into the channel and into the kundalini energy, feeding the core of

the body from a deeper level. *Note: the increased body energy created by this class may ‘stir up your system’ for a while.*

Unwinding the Fascia Energy (3 days)

Prerequisite: Foundational Training.

In other Vortex classes, the healing work involves only the channeling of energy, not direct work with the body-tissue. But working with the tissue of the body, in particular the fascia (the connective tissue), can give you a completely new perspective of the body. Working from a ‘hands-on’ perspective makes you more comfortable with the body, more aligned with it, and therefore also more in tune with what it happening in it. In addition, because the body energies follow the structure (or planes) of the fascia, as you learn to play with the fascia and feel the energy flow through it, you learn to sense the body energy pathways in a way that for most students is difficult to learn just from channeling. Finally, for certain kinds of injury—for sprains, bad physical traumas, pulled backs, etc—being able to work directly with the tissue, to ‘unwind’ the energetic strain patterns there, is usually invaluable. It is also very good for emotional work, since the strain patterns in our fascia are usually from our emotional patterns, so opening these strains patterns releases the emotional energy stuck there.

From this 3-day class, you will learn enough to get started. Becoming more ‘skilled’ at unwinding the fascia energy simply requires practice.

You may need to bring pads (and pillows) for softening the wooden banquet tables. Class size is limited.

Deepening in Meditation with Merlin (1, 2 or 3 days)

Prerequisite: Foundational Training.

This class is designed specifically to help you, from wherever you are, to go deeper. There is an ongoing transmission in the class, which will do different things at different times, and different things for different people. It may facilitate a deepening of your heart, or the creating of more inner silence, or it may bridge your nervous system into a deeper connection with divinity, or it may open your being more to divinity, etc. As you meditate in class, Merlin will work with you and deepen you according to what your inner development needs are at the time. For those of you with a meditation practice, the class will also, naturally, deepen that. The format of the class is simply being with Merlin as you meditate with the Merlin mantra.

Each repeating of this class starts from where you are at the time and takes you deeper from there.

Bringing Consciousness to Form (3 days)

Prerequisite: Foundational Training.

This is an awareness class that utilizes simple movement and yoga, along with simple Vortex techniques, to bring your attention to how you are in your ‘form’ and how you hold issues there. ‘Form’ not only includes the physical body but also the other energetic bodies and the rest of the human system. Working with the tools of this class facilitates becoming more awake and more conscious of your patterns within your physical form, and it gives you a new method for releasing the blockages to being present there. The overall experience is very powerful on a physical and emotional level, and very grounding. In addition, learning to track issues within yourself in this way can also open ‘psychic’ sensing abilities.

The class includes a transmission from Merlin, which deepens the bridging of awareness into the consciousness of your form.

The class is designed for anyone at any level of fitness or flexibility.

Creating a Professional Practice (1 day)

Prerequisite: Foundational Training.

This class addresses how to start a professional healing practice and to clear the issues that are in your way. Curriculum will include ethical considerations, privacy laws, confidentiality and basic therapeutic models. The discussion will be guided by the interests and concerns of the students attending. Class will include a transmission and a group healing to work on your greatest obstacle to creating a successful healing practice.

Magical Structures Level

Magical Structures (5 days)

Prerequisite: Foundational Training.

- **Magical Energetic Structures made of "wizard thread"**. These can be placed in a body for improving the functioning of an organ or system; they can be placed in a house or room to alter the feeling-quality of the space; they can restructure the flow of energy and consciousness in offices or homes, making them more efficient, more relaxed, and more harmonious; they can reduce the side-effects of drugs; they can help grounding or be used to create "spells" to facilitate sleep or working through issues; they can be used to mimic acupuncture or Jin Shin, or create 'Dosha' balancings or create Body-Mind Wakeup treatments—fantastic for "resetting" the physical body. They can even be used to change the sound of one's voice. The possibilities are endless.
- **Vortex Crystal-Grid Release**. This is a healing art in itself. You learn to pop up special magical structures called "Vortex Crystals" and place them in your own or someone else's field, for energizing or to release blockage by working with the energetic blueprint of a problem. Works especially well for the emotional and mental bodies and for doing healing at a distance. The Vortex Crystals act as a second energy source, creating more power for self-healing or working on others. Once activated they can run on their own, so you can use them to do treatments on yourself while you sleep. They can also energize a room.
- **Merlin's Global Healing Grid**. This amazing Healing Grid, a global magical structure created by Merlin, enables you to participate very directly in Earth Evolution. For instance, a single Magical Structures level student can release a town's karmic accumulation on that area of the earth in less than 10 minutes. The change can be quite striking and can be done at a distance. And the incredible power of this Healing Grid can be used on personal issues as well (for yourself or others). You can even use it to perform 'pujas' (for yourself or others) that harmonize you with transiting planets and help to alleviate negative astrological influences, or for special events or issues, or do Ayurvedic 'Dosha' balancings.
- **Open Vortex Spaces**: these special magical structures can be put around rooms, houses or cities, to create a higher vibratory space.
- **Advanced Energetic Hookups to the Vital Web**: enable you to "hookup" to anything in creation, for healing. Now you can improve the sound of musical instruments and work much more directly and deeply in a person's energy system.
- **Vortex Meditations specific for Karmic Acceleration & Evolving the Energy System**.

Karmic Intensive (2 days)

Prerequisite: Magical Structures.

The intention of this class is to generate a very intense karmic acceleration and to evolve the energy system. The 2 days will be spent entirely doing a Vortex meditation specific for this class (which creates a lot of movement in the karmic body) and using VortexHealing tools to keep catching up the system to the movements created by the meditations. The class will also help the student to develop their awareness of the vital web, which promotes the development of their psychic awareness, both in general and for tuning into the energy systems of clients.

Earthshift & Energy System Intensive (2 or 3 days)

Prerequisite: Magical Structures.

The intention of this class is to gather a large number of Vortex students together and use the power available in our lineage to facilitate movements in the consciousness of the earth and in the field of human consciousness. StuBut because students' own bodies and consciousness are part of that shift, their energy systems go through a significant acceleration from participating. This energetic development happens for both newer students and our most advanced ones, and the same degree of development is there each time a person participates in an Earthshift.

These Earthshifts are also supported by the Angelic Realm. An angel comes into each student's spine while they are meditating, intensifying all the energetics, both to facilitate both the movement of the Earthshift and the energetic development of the student.

The experience of having this kind of movement unfold through your system is often quite moving.

Sensing I: Psychic and Consciousness Development (1 day)

Prerequisite: Magical Structures.

This class is designed to promote psychic and consciousness development and in a way that supports the evolution of the individual's spiritual consciousness. For many psychics, the act of 'seeing' is divorced from their being and gets them more 'in their head'. Here, the development is designed to integrate the seeing/sensing into the sense of being, so that seeing pulls the perceiver into being, and so that resting in being feeds the ability to see. But this class is not just about psychic development but also about the evolution of ordinary consciousness. For instance, if someone is ungrounded, they will be pulled towards a more grounded place. For someone who has difficulty with

focus, the transmissions will help them to focus better. For someone who avoids their emotions, the transmissions will help them to experience what they are avoiding. So, all the transmissions are working both to bridge consciousness into a deeper awareness and more 'psychic' perception, as well as to align perception in a way that facilitates spiritual growth and awakening.

This is one of the few classes where repeating the class deepens the transmission.

In 2015, the transmission for this class went through a very deep upgrade, but only about 60% of that new piece can be given the first time this 1-day class is taken. The rest comes in either the second time the class is taken, or during Sensing III. The upgrade deeply densifies the transmission into the body.

Note that for students who have lost their Core Veil and are repeating this class, it also acts as energetic embodiment for their awakening.

Multi-Frequency Level

Multi-Frequency & Merlin's Jewel (6 days)

Prerequisite: 1 Vortex Intensive or 1 Earthshift & Energy System Intensive.

This class gives the student new tools to enable conditioning to be released far more quickly, as well as to get at certain deeper levels of conditioning that could not be effectively worked on beforehand. These new tools are:

- **Multi-Frequency** contains millions of life-frequencies and all the color variations of light, in dense and homeopathic form. It can be used to release, to harmonize, to nurture or to 're-set' various system in the body.
- **Oneness Frequency** specifically breaks down the vibration of separateness in the human personality, releasing attachment and identification, and thus breaking down our emotional/karmic and ego positions, as well as some of our 'attachment webbing'. It can also be used as a meditation.
- **LifeEssences** are pure energetic nourishment. They combine the energies of crystals, herbs, colors and vibration, with the intention of nourishing different organs, systems, and conditions. LifeEssences come in dense and homeopathic form.
- **Merlin's Jewel** enables you to make a new kind of energetic structure that has many uses, including the making of portals to bring in energy from other places and dimensions. Merlin's Jewel is also the basis for Omega (see below) and the post-Omega VortexHealing classes. One can meditate on the heart of this Jewel.
- **Crystal Energy** is a dense, stabilizing energy that can be channeled as crystal structures or as "liquid crystal" energy. It is excellent for breaking up various kinds of congestions. Crystals emanating homeopathic frequencies can also be made, as well as energetic gemstones, enabling the creation of a complete "Crystal-Gem Treatment", which will work by itself without conscious channeling for 20 minutes, once it is set up, so you can create one just before going to sleep.
- **The Merlin Chip** enables you to program MF and/or Oneness Frequency and/or LifeEssences to run in the background, and enables you to channel these energies at full strength with one intention, with some Running of Divine Lines as well.
- **All Energetics** is a composite transmission that enables the simultaneous channeling of Multi-Frequency, Oneness Frequency, LifeEssences, Crystal Energy, the 49 forms of Vortex Energy, and some Running of Divine Lines, with a single intention (although the transmissions are not channeling at full strength), and with Merlin directing each energy to where it needs to go in the system, according to divine intelligence.
- **Grounding Frequency** is a special frequency that when channeled for about 30 minutes, permanently grounds the system in a new way.
- **Body-Harmonic Frequency** is a special frequency that is like delta brain waves, which is associated with deep sleep. When channeled, it helps the system, or particular traumas, to deeply relax and let go. It can also be used as a meditation.
- **Homeopathic Wizard Thread** is a special form of wizard thread that can create homeopathic effects.
- **Transforming De-Toxing Energy** is a unique transmission for manifesting this kind of energy.

> Multi-Frequency, Oneness Frequency, and LifeEssences can be all programmed to work in the background, 24 hours per day. Although the effect is much less than channeling it consciously, it does create some 'free' movement.

Genetics & Multi-Frequency Devices (5 days)

Prerequisite: Multi-Frequency & Merlin's Jewel.

This transmission enables the practitioner to release personal, karmic and ancestral imprints from the DNA, as well as to effect changes in the epigenetic level. And the research we are doing in this field—from both medical tests and university genetics studies—indicates that the effects we can create on the epigenetic level are impacting genetic

expression. Hence, in addition to working on genetic "kinks", you can create genetic "enhancements" to your system as well.

From an evolutionary point of view, humanity will be developing a new dot chromosome, designed to move humanity towards higher levels of consciousness. In this class you will create the energetic blueprint of that in your energy system, and will be able to do that for others as well. The blueprint itself creates change in this direction.

You also learn to make Multi-Frequency devices—special kinds of structures that are able to work with grosser levels of vibration than the wizard-thread structures from the Magical Structures class or the Multi-Frequency structures, and they can bring in more energy.

NOTE: Because of how deep in the body this class works, assume that it will take at least a week to integrate its movement.

Breaking TimeLines (4 days)

Prerequisite: Multi-Frequency & Merlin's Jewel.

This transmission enables you to temporarily put organs, chakras, meridians and body systems into a state where they "oscillate" between manifestation and non-manifestation. In this state, the divine can quickly empty that system of history and trauma, which can create instantaneous dramatic results. The transmissions for this class greatly amplify the student's ability to bring in highly concentrated shakti (charged, Divine energy), and that shakti is then used to 'break timelines', making this class one of students' favorites.

LifeForm Level

LifeForm (5 days)

Prerequisite: Multi-Frequency & Merlin's Jewel.

Where Multi-Frequency works by channeling energies and frequencies to release stuck areas in the system, LifeForm works solely through channeling consciousness. The LifeForm transmission enables you to channel the consciousness of Perfect LifeForm for either the physical, etheric, emotional, mental, spiritual, or karmic body, or all of them together. When you channel LifeForm, you awaken these various energetic bodies to their true nature, free of conditioning and concepts, and this awakening releases the conditioning, for it is now recognized as 'not-self'. The energetic bodies then become purer vehicles for the expression of different aspects of our human experience, and this enables us to experience, through our humanness, the beauty of divine expression through form. There is also psychological and chakra LifeForm.

A Mantra Transmission is also given in this class, which enables you to channel a mixture of Hindu, Tibetan, Kabalistic, Angelic and Thnguu mantras, as well as special Vortex mantras, Divine Truth mantras, and the Merlin mantra, sending different mantras to different systems, according to Merlin's divine intelligence. (Mantras are a way of expressing different aspects of divine consciousness through sound.) Mantras can now be added to Vortex crystals and channeled to particular body areas or into the body as a whole.

A composite transmission, called Rainbow is also given, which enables you to channel LifeForm, Mantras, Oneness Frequency, and a certain amount of Divine Lines all at once, with a single intention. And Rainbow can be programmed to run in the background while you sleep. All Energetics (from Multi-Frequency) now channels all the new transmissions as well. There are also 5 new forms of Vortex that specifically work on each of the energetic bodies—the karmic, etheric, emotional, mental and spiritual bodies, greatly deepening the energetic movement there. And there is a completely different kind of transmission, for a healing tool called Energetic Intervention, which helps to move physical blockage and is the only VortexHealing tool that can reopen subtle meridian pathways that have gotten blocked enough that they literally shut down.

This class helps your consciousness and heart engage in a deeper dialogue with the intelligence inherent within all life.

InterDimensional Vortex (4 days)

Prerequisite: LifeForm. (Note: Because the Inter-D transmission is now given in Jewel class, Inter-D Vortex class is usually taught only in areas of the world where Jewel class is not available.)

InterDimensional Vortex is the deepest and fastest tool we have for releasing conditioning, before getting to the Omega class. It releases by *bridging* everything into Divinity. Its depth and speed enable us to be able to finish releasing all ego positions and all karmic webbing during the class.

But Inter-D is quite unique and can also create effects that cannot be created by anything else except Jewel. It can be used to *transform* the energetic quality of the system as a whole, or even more deeply transform individual organs, glands, body systems, chakras, energetic bodies, kundalini energy, the nadi (subtle nerve) system, meridians,

etc. When a system is *transformed*, its tissue moves to a higher vibration and becomes freer, enabling any karmic material in it to be released more easily, making it harder for new conditioning to imprint, and enabling that system to function better. Inter-D can also be used to create a unique opening to the divine in your spine and Spiritual Heart

Other transmissions for this class (which are not given in Jewel class) include InterDimensional Crystals, Vedic Sounds, Hebrew Letters, and InterDimensional Fields that can be used for personal *situations*. In addition, Inter-D and Vedic Sounds become part of Rainbow, a composite energy that can be run in the background while you sleep; and Inter-D, Vedic Sounds, and Hebrew Letters now become part of All Energetics.

There are also special transmissions for deepening the work of Inter-D in the thymus (important for allergies), in the brain and amygdala (where lots of survival patterns get hardwired), and in the karmic body.

All of the unique qualities of Inter-D can be used on yourself or others.

For those who have also done Omega, taking this class enables Omega to use the Interdimensional Bridge, enabling it to run about 10% deeper.

Angelic Heart I (3 days)

Prerequisite: LifeForm; Sensing I. (Or if Jewel has been taken, Sensing is not needed as a prereq).

This class is given with both Merlin's and angelic assistance. The class is not *about* angels but how to channel a quality of angelic energy and consciousness called Angelic Heart. The human emotional system responds very strongly to this, facilitating the release of old emotional patterns and helping the remembering of our own Heart. In particular, Angelic Heart creates a bridge from the human emotional system to the angelic realm, and this bridge becomes a kind of 'invitation' for the ego to let go of its attachment to emotional drama so it can more fully engage the energy that is being offered. In addition, Angelic Heart bridges into and does some work with the subconscious mind. By working in these ways, Angelic Heart is able to create a broad transformational movement, which is greater than the release of specific conditioning.

For the time of the transmission, an angel comes into each student's spine to facilitate the transmission, and this creates a very transformational space, in which new realizations about one's life seem to naturally emerge. In addition, the transmission seems to go out through the student's LifeField, interacting from there with other aspects of their life, as part of a larger transformational process.

Omega Level

Omega & the Karmic Body (7 days)

Prerequisite: LifeForm.

Omega takes Merlin's Jewel, which was given in MF class, and empowers it to work at a level that is a huge jump from the classes that preceded it. Merlin's Jewel is a structure of pure divine magic that functions as a hologram of all creation. Whatever issue you are working on, in yourself or someone else, is already inside the Jewel. From the Jewel we construct an Omega Ball, which enables us to use this hologram of the universe to manifest healing.

Omega works deeply enough to be able to release the outer weave of the 5th dimensional level of our conditioning as well as what we call the 'pre-karmic' level. The effect of being able to work on our issues on this level is truly astounding.

There are 13 forms or unique expressions of Omega, each of which acts in a very different area of the energy system and consciousness. There is General Omega, Physical Omega, Omega Fire, Omega Essences, Spirit of Omega, Omega Truth, Omega Information, Omega Energy, Omega Crystal Energy, Omega Mantras, Karmic Body Omega, Omega LifeForm and Interdimensional Omega. They can be channeled separately or all at once. In addition, there is an advanced form of Genetics taught (for those who have taken the Vortex Genetics class) and there is a transmission for channeling Divine Fire. Divine Fire is the most effective tool in VortexHealing (until Jewel class) for knocking out acute and chronic infections of any type. It literally burns up the protein walls of the DNA of the infecting virus, bacteria, fungus or parasite.

Omega Essences are the first tool to be able to transform some of history that is part of the actual structure of the DNA.

Karmic Bodies transmission, which was originally a separate class called *Karmic Body Release*, is now incorporated into this class. This is the first transmission that enables you to release through all the layers of the karmic body, which is the key storage place for all of our personal karmic drama, which generates about half of our historical emotional conditioning. (The other half comes from our ancestral history in the DNA.)

In this class we also learn to do 'Reality Shifts' using the 13th chakra (about 60 feet above the head). This is similar to the technique of breaking a TimeLine, but much deeper. Not all students in class will be able to do this,

though. Some students will need further energetic development before their system is able to perform a Reality Shift. For those who have also taken InterDimensional Vortex, that class enables Omega to use the Interdimensional Bridge, enabling it to run about 10% deeper.

Presence (3 days)

Prerequisite: Omega.

This transmission is purely for developing and expanding consciousness; it does not directly release karmic ‘stuff’. It is designed to bridge consciousness into a more awakened state of Presence and to enable the student to channel this movement to others. The transmission also brings in 7th Dimensional light, which can also be isolated and channeled by itself for meditation or on others. Presence is also helpful for those who have lost their Core Veil (see Core Veil & Awakening to Being Awareness class, below), to integrate their awakening.

In Merlin’s Grace, the Presence transmission is upgraded, which both deepens it and enables it to bring in 8th dimensional light.

This is one of the few classes where repeating the class deepens the transmission.

Sensing II (3 days)

Prerequisite: Omega’ Sensing I.

This class is mostly transmission. Merlin builds upon the foundation of perceptual restructuring that occurred in the Sensing class, deepening that in a major way. These transmissions are some of the most “cosmic” of the Vortex transmissions. But they also directly impact the energy system, rewiring it to improve sensing ability, as well as making it more subtle, which also enhances sensing. The transmissions also deepen the navel hookup to the general field of life, which enables better psychic perception through that hookup as well as deepens the bridge for doing healings on others.

This is one of the few classes where repeating the class deepens the transmission, also deepening its effects on the energy system.

EarthWorks I: Divine Funnels & More (3 days)

Prerequisite: Omega.

The main focus of this class is to enable 3 students, working together, to create enormous divine funnels that act to bridge large amounts of divine energy and consciousness into an area with a diameter of about 50 miles. (With a little practice, this can be done by one student alone.) These funnels can also be centered in a house, and personal structures can be created to tap into some of its energy.

In addition, there are 4 other transmissions, for making other kinds of funnels & structures:

Divine weather-funnels: These funnels help to heal the earth in the area they are made, so that its weather patterns are more natural for that geographic location.

Earth Cleansing Structures: These are designed to clear negative energy out of the earth in areas where trauma happened. They can also speed up the time it takes the earth to process physical toxicity. A single structure can extend for about 350 yards (~320 meters).

4-Element Structures: these pull in the consciousness and qualities of the 4 elements—earth, air, fire and water—and then creates a balance of them in a house or other building, as well as a body, making it feel much more harmonious with nature. The change is quite remarkable. It makes the inside of a house feel connected to the earth and to the consciousness of the earth in a way that no other Vortex structure does. Even in open land, a single structure can cover about an acre, making the elements there feel more harmonious.

Mini Energizing Funnels: these are to temporarily generate extra energy for the physical body, or for an organ chakra, or body system (such as the lymph system, hormonal system, etc).

A lot of energetic breathing is required for bringing in the shakti that is needed to manifest these divine funnels. A combination of this breathing, along with the shakti-building transmissions given in this class, has a deeply strengthening effect on the student’s energetic spine.

Earthworks II: Divine Doors and Temples (5 days)

Prerequisite: Earthworks I; Core Veil & Awakening to Being Awareness.

This class is a deepening of Earthworks. Your energy system and consciousness are developed to be able to open divine doors out of deeper dimensions of creation. Unlike the funnels from Earthworks, a divine door can bring in any quality or focus of divine consciousness. From this class you will be able to open a large divine door for an area, a smaller divine door in an object, a divine door within a person’s body, angelic divine doors, divine doors for

nature and Puja divine doors. (You will also be able to open Merlin divine doors). When a divine door is opened in an object, that object can then also be used for healings, blessings and meditation.. Students find opening these doors to be very exciting.

As with Earthworks, a lot of energetic breathing is required to open these doors. In addition, because of the kind of surrender required to complete the manifestation of a door, the heart learns to let go in a way that supports spiritual growth and deepens the movement into awakening. Repeating the class deepens the transmission.

AWAKENING THREAD

Core Veil & Awakening to Being Awareness (7 days)

Prerequisite: Omega. (Note: this class used to be 3 separate classes: the Core Veil, Awakening to Being Consciousness, and Awakening to Itself.)

From the VortexHealing point of view, the sense of separate self, of separate 'I', is a Divine 'set-up'. That which IS, without separation, which we also call Divinity, has somehow managed to generate for Itself an experience of separateness, of individual identity. To generate this false sense of identity and hold it in place, Divinity needed to find a way to 'veil' Itself from Itself, to find a way to experience Itself *as if* it were separate. This would appear to be no simple feat. To do so, it created dimensions, consciousness, life itself, a maze of Divine structures, and various levels of 'veils' that could maintain the sense of separation and hold the consciousness of 'I'. For the initial movement of awakening, what needs to move is the veil called the Core Veil, which sits in the center of the human heart and acts as a reference point for the sense of separate 'I' for the human and incarnational personality.

The first part of this class facilitates the breaking down of that Core Veil. We say that the breaking down of the Core Veil creates 'basic awakening', because the basic sense of 'I' disappears from the center of the heart. After this 'basic awakening', when you examine 'who' it is that is having your experience, you no longer find a someone, a separate sense of 'I'. That familiar someone was an experience generated by the Core Veil, which is gone. This changes everything. And yet ironically, because there is still so much conditioned I-consciousness left over (that had grown out of the 'I' of the Core Veil), you tend to still experience yourself much as you did before. So everything changes, and most everything stays the same. It is as if you had been living in the middle of a very complex dream of being a particular someone, and suddenly a permanent window appeared in the center of your heart that opened into something beyond the dream. The dream continues, but whenever you, within the dream, look into that window—which goes with you wherever you go—your sense of being a particular someone in that dream disappears into some greater truth.

This is basic awakening. Before, there was only the illusionary experience of someone-ness. Now, there is the realization of something else, but all the memories are still of being that someone. Everything is now different, and yet everything also still feels much the same. This is neither the end of awakening nor a 'flowering into perfection and bliss'. Rather, this is the beginning of a new process that rarely aligns with the seeker's expectations. Not surprisingly, most beings find 'basic awakening' confusing, and for some time.

The process now is about bridging awakening to the areas of conditioned consciousness that are not yet awake (a process called embodiment) as well as deepening the awakening that has already occurred. In the second part of the class, we both deepen the awakening and practice embodying it. The deepening takes us through two more levels of awakening. The first is a movement we call Awakening to Being Consciousness (also called Awakening to Emptiness). This is both a much broader awakening out of the sense of personal, and a deeper level of awakening to the freedom of consciousness itself. In Awakening to Being Consciousness, the 'window' described above fills your whole field, and it becomes clear that all the dramas of your life simply arise in consciousness, and that you are that space they are arising within. This permanently creates in your consciousness a place where you can recognize that you are free from the hooks of these dramas. But this awakening still needs to be 'embodied' in daily life or else it just becomes a background awareness rather than the place one is living from.

The next awakening movement in the class, which moves the awakening to the next deeper dimensional level, we call Awakening to Being Awareness. In the earlier awakenings you were awakening out of the illusion of who you thought you were. Now you begin to awaken to what you are beyond consciousness. Where Awakening to Being Consciousness feels like the vast silence and emptiness of consciousness, Awakening to Being Awareness feels like Awake Beingness, like the essence of What Is. Awakeness Itself within Consciousness now begins to sense the echo of Itself everywhere, within everything. As with all true awakenings, this awakening is now permanently present, but if one does not engage the process of embodying it in daily life, then it just becomes background awareness rather than the place one is living from.

There are other awakening movements in this class, including breaking down the Core Me Veil, which not only holds a lot of ego structure in place but holds a lot of body tension as well.

It should be pointed out that although all spiritual awakening happens purely by grace when a spiritual seeker has become sufficiently 'ripe', the Divine source of our lineage has, by grace, been manifesting this ripening in students from the first day of the Foundational Training, so that by the time a student takes this class he or she is sufficiently ripe. And the very same grace that has facilitated this ripening ensures, by Divine intention, that anyone who then takes this class does, in fact, lose their Core Veil in class.

A 'healing' perk for this class is that everyone gets their karmic body 'Reality Shifted' which creates a huge unloading of karmic debris and conditioning, significantly lightening the 'weight' of the karmic baggage in the system.

Another large perk is that our 4 Functional Centers are strengthened and optimized.

To help clarity in life, a 'Truth Line' gets established in the consciousness and energy system, which makes it easier for students to 'recognize the truth' when they are trying to sense what is truly happening, whether in a healing session or their life in general.

Cautionary Note 1: because the breaking down of the Core Veil and the movements of Awakening to Being Consciousness and Awakening to Being Awareness are a loss of major ego-identity, what is left of the sense of someone-ness may have various kinds of emotional reactions to this movement. These reactions may range from great joy to great loss or confusion, or there may be very little subjective reaction at all.

Cautionary Note 2: People have a great many preconceptions and expectations about the nature of awakening, which almost always turn out to be false.

Deepening Awakeness & Embodiment (4 or more days, may include nights)

Prerequisite: Core Veil & Awakening to Being Awareness.

This class is to support the post-awakening process. The post-awakening process has 2 distinct movements to it. One is a deepening, transcending process that simply creates more inner freedom. This is the focus of the other awakening classes. Deepening Awakeness & Embodiment focuses on the second movement: the process of getting the awareness of that freedom more fully into the human personality, so the opening to freedom and oneness is more completely and deeply experienced. This has the roll-on effect of bridging that awakeness into our experience of life, so we live more from our awakeness, embodying it in our lives.

The class includes a transmission that helps to bridge consciousness into stillness, which facilitates opening to the direct experience of what we are.

The incarnational aspect of the 'personal karmic field' is cleared here. If Awakening the Bodymind class has been taken, then the navel aspect is cleared here as well; otherwise it will be cleared when the Bodymind is taken (after this class).

Many students report having their most profound sense of awakening in this class.

Merlin's Puzzle: Seeing from Truth (5 days)

Prerequisite: Sensing I; Core Veil & Awakening to Being Awareness.

The focus of this workshop is to deepen the power of your awareness so that you can more directly meet your issues, stories, identities, beliefs and daily behavior, and inquire into the Truth of them. This is called self-inquiry, and it is part of the process of deepening and embodying awakening in your daily life.

You will receive and work with Merlin's Puzzle, which is a magical manifestation that was originally created by the fifth Merlin of the lineage. The Puzzle acts as a focus for your awareness to encounter its illusions, to awaken from them, and to deepen into the Divine. We also work with a new Merlin's Puzzle called 'Glillial', which is a Merlin re-packaging of an historic, divine feminine lineage.

The class has plenty of practice time, so that you can gain confidence in your ability to do self-inquiry successfully. Repeating the class will significantly deepen the transmissions.

Sensing III (2 days)

Prerequisite: Sensing II; Core Veil & Awakening to Being Awareness.

This class bridges the Sensing II transmissions deeper into the physical body, making them more active in consciousness. The upgrade to the Magical Structures level Sensing class, first taught in 2015, would also be caught up here, for students who took Sensing earlier.

Bringing Consciousness Through Form (3 days)

Prerequisites: Bringing Consciousness to Form; Core Veil & Awakening to Being Awareness.

A transmission from Merlin bridges the awakening that is already present, so that you can experience more of that on a physical level and express more of your awakening through your physical form. Using movement and

awareness to engage this process, we will explore ways to release the blockages that inhibit the physical expression of inner space and freedom.

Inner Veil (4 days)

Prerequisite: Core Veil & Awakening to Being Awareness.

The Inner Veil is the 8th dimensional blueprint for our Core Veil. It holds a deeper sense of separate 'I', supporting the sense of separate 'I' created by the Core Veil. It is a deeper identity for the ego. Whereas the Core Veil is a construct in *consciousness*, the Inner Veil is constructed by a densely woven divine structure, on a deeper dimensional level. The Inner Veil may be thought of as having a foundational piece, which is not in the body, and 'manifested pieces' that express as 'I' directly in various aspects of the body and energy system. Because of the density of the weave of divine structure in the foundational piece, when it breaks down it lets loose huge amount of light, which then enters into and becomes part of the body's energy system. Awakening the manifested pieces has a much larger effect on the deepening of awareness.

We also awaken something we call the 'heart gremmie', which holds a deep sense of ego consciousness in the heart.

Being-IS, Universal Veil & LCF (6 days in 2019)

Prerequisite: Inner Veil.

This class helps bridge students through certain major, specific awakening movements.

Being-IS is the awakening where one's awareness spans all the dimensions of creation and beyond, while simultaneously is focused here.

The Universal Veil was created when the I-Point, the original seed of the Inner Veil, identified with consciousness itself. We release all 4 levels of the Universal Veil.

The LCF (the Local Consciousness of the Form), comes into being when Universal Consciousness localizes itself around a lifeform and reflects all the conditioning there, creating within its own space a re-production of both that conditioning and its ego center, its 'me center', and its underlying ego sense. We release all these ego expressions in the LCF, as well as the Divine structure supporting the localized boundary.

We also release: the last 2 (of 4) levels of I-thought and the sense of personal tied to those; our identification with the false sense of a "higher level of me" that is often referred to as our "soul", the 2 Genetic Core Veils from the male & female ancestral lineages; the 3 Genetic Prime Directives, which strongly amplify our survival consciousness; and we release the 4 remaining humanity-level veils. We also awaken the karmic mind, "give away" much of its conditioning, and break down the dense 'soul bodies'.

One of our core identities, our identity with our 'home energetic body' is released.

Other perks for the class include a transmission for the first chapter of the Book of Pure Magic and generating the Window to the Light of Divinity in the heart.

I-Point & 0-Self (6 days in 2018)

Prerequisite: Being-IS, Universal Veil & LCF.

This class focuses on awakening the I-point and our identity with Universal Self.

Our I-point is the original point of 'I' that was the seed of the Inner Veil. This is the root of individualized I-consciousness.

The individual I-point derives its sense of self from Universal Self, also referred to as Universal Ego, which is vast, filling all of creation, at all dimensional levels. This is our original sense of ego or self. Awakening the I-Point releases the root of *individual* ego, but the subtle experience of Universal Ego, which is the root of the sense of self, still pervades one's consciousness. Usually, when people awaken to the sense of everything as self, they have awakened to this level of universal self; and because it is so vast, they don't realize that it is still a subtle experience of ego. When the sense of universal self is awakened, there is still the sense of being, but no longer as self. We have awakened to the no-self sense of self, the sense of being what you are with zero sense of self. So we call this Awakening to 0-Self.

In addition to these awakenings, the sense of 'I' in the subtle heart is awakened, and the surface of the Original Veil (also called the Duality of Awareness & Consciousness) is awakened. Although this just shifts the surface 20%, the effect of having this movement at such a deep level is quite profound.

There is also a new healing technique that emerges here. After losing the I-point, localized consciousness in some way becomes free enough that it can simply intend for the Divine Web to do something, and the Divine Web generates a response. This is quite significant for it is the Divine Web that ultimately determines what happens in the

vital web of our universe. And because the movement created in this way has only about a 60% overlap with Merlin's Grace, it can add a lot to the healing work for those who have taken the Merlin's Grace class.

In addition, A Pure Consciousness energetic body will be given by transmission. This creates a layer of unconditioned consciousness in the system, which makes it easier to be aware of the conditioning that is there.

We will also awaken the Subtle Heart Core Ego Identity.

Awakening the BodyMind & Transforming its Nervous System (7 days)

Prerequisite: Being IS, Universal Veil, & LCF; Genetics.

The BodyMind has its own ego structure, based on 2 Ancestral Core Veils and a new Genetic Core Veil created for the new body, each of which creates a Body-Ego Center. The Ancestral Core Veils were awakened in the prerequisite for this class, and the deeper Genetic Veil, the new one that was created for this body, is awakened here. Along with that, the 3 Body-Ego Centers are awakened, and the Genetic Personality Gestalt is broken down. There is also some time spent releasing as much of the Genetic Body-Ego Imprint from the spine and nervous system as is appropriate for each student. Combining the awakening of the bodymind with the effect of this specific release, the nervous system goes through an extraordinary transformation, and some students have had long-standing body issues healed just from this.

We have 7 Core Beliefs that support our experience of separateness, which are more like laws of physicality for the body than mental concepts. Once the BodyMind is awakened, these are awakened as well.

Another aspect of the BodyMind is the Personal LifeField, which is awakened in class.

Another deep movement in the class is awakening the spine of the DNA. Even as we release genetic emotional patterns and other conditioning from the 'genetic mind', its overall 'story', which is one of survival, remains, held in the spine of the DNA. After we awaken the bodymind, we awaken this, which has a very deep effect on the focus and pressure of survival consciousness in our system.

For Merlin's Grace students, the awakening of the BodyMind enables a general deepening of the Merlin's Grace healing transmissions, in addition to a specific upgrade that now enables work with the navel Assemblage Point.

A big perk for this class is that each student receives a set of Divine power lines, which strengthens the core of the energetics of their system, giving it more power for doing energy work, or just for living.

The 'Inner Inter-dimensional Mutant' is cleared here, as well as transform the bodymind's consciousness network.

If a student has had the incarnational aspect of the 'personal karmic field' cleared in the Deepening Awakening and Embodiment class, then the navel aspect is cleared here as well; otherwise it will be cleared here.

This class will be very intense on an energetic and body level and will take a couple of weeks to integrate.

Breaking with the Past (5 days)

Prerequisite: I-Point & Duality of Awareness & Consciousness.

In each life, we create a basic sense of our human emotional identity. This general sense of what we are comes from our history: mostly our incarnational history, but with some ancestral history from our genetic systems, and with our history of having lived in a particular body in this life mixed in. The core of this identity though comes from our incarnational self, since that has been our identity from the beginning of our incarnational journey. And this incarnational self is comprised of our incarnational body and our incarnational consciousness, as well as our identity with each of these. At the center of all this, of course, is our true identity as pure awareness, but even when we have awakened, our awareness tends to maintain its old identity with this incarnational self because that is such an old experience for us. To truly break with the past, we need to do more than just create some space in relation to our incarnational self. We need to fully break it down. Only then can our true reality shine through. And that is what we do in this class, we break down the incarnational body and incarnational consciousness.

A sort of mirror image of this incarnational experience of self is held in the LCF and in the bodymind's consciousness. Both act as supports and backups for the original sense of incarnational self. We release these as well, which also breaks down a boundary that separates the LCF from the rest of universal consciousness. We will also unhook from humanity's group ego realm, break down a gestalt of an emotional self held in the emotional body, break down a gestalt of a mental self held in the mental body, and release our identity with brain consciousness.

There are two other major "breaking with the past" movements: The first is awakening the main ego reality stream held in the personal AP. This stream flows into all our other reality streams, supporting the sense of ego in all of our experience. The second is that we are going to slightly move the student's AP towards the heart, creating a major realignment of everything in the system.

This class can be viewed as an awakening class or as a deep embodiment class, because it helps you to break with your past in a real and fundamental way, making you more available for what is new, here and now.

Original Veil & Universal AP (11 days in 2019)

Prerequisite: I-Point & O-Self; Merlin's Grace.

This class awakens our Original Veil. This is the veil through which awareness originally became identified with consciousness. The class is combined with a Deepening Awakeness & Embodiment class, which acts as the first part of this Original Veil class. An enormous sense of freedom enters in here.

Our deepest healing tool will also be given in this class, for those who have taken Merlin's Grace. We call it Utilizing the Universal AP. (For more info, see *Utilizing the Universal AP*, at the end of the Healing Thread's list of classes, below.)

Other bits for this class: We awaken the ego-center of personality, the Intelligence Fields (except the Luminous Egg I-Field), and the incarnational identity as a human being. Rifting is updated to work more through the 6th & 7th dimensions. In addition, transmissions are given for structures to protect against re-conditioning various body systems, and for structures that 'separate reality streams' to make the releases for reality streams more effective.

In addition, a very deep identity with the sense of oneself as a being is broken down. This identity creates a false sense of boundary from the rest of creation. The breaking down of this boundary also helps loosen an enormous amount of conditioning that it held in place.

Sensing IV (2 days)

Prerequisite: Sensing III; Original Veil & Universal AP

This is a deepening of Sensing III.

Transforming DNA's Core Program (3 days)

Prerequisites: Original Veil; Awakening the BodyMind.

The DNA carries many survival programs. But behind all of these is a single core program for this, which pervades all of creation. This program is at the root of all of our genetic conditioning and strongly pulls us into separation. This class transforms this program, replacing it with one that supports our sense of being.

After the new program enters in, it is bridged into our personality and our cellular consciousness. In addition, just as there are 4 levels of I-thought that arise from the I brought in by our incarnational self, there are 4 levels of I-thought that arise from the body ego, carried in our genetics. In this class, we awaken the first 3 levels of this, bringing even more awake space into the body and grounding our awakening more deeply.

The navel and 'regular' assemblage points also have core programs that shape the nature of the personal and physical reality they construct. These are transformed, and then the reality streams within these AP's are 'caught up' to better reflect the new programs.

This class also deepens the healing tool of the U-AP by about 15% and Merlin's Grace by about 20%.

Awakening to Divinity (9 days in 2018, 10 in 2020) Prerequisites: Original Veil; Merlin's Grace;

Awakening the BodyMind.

Until this point, all awakening classes are ultimately about awakening to our manifest reality as awareness/being/light/love. Here, in awakening to Divinity, we start to awaken to the Source of that. It is a movement from freedom to IS. In freedom, there is still a subtle identity of awareness experiencing itself as free, This is not an ego-identity, but it is still identity. With IS there is only This, as it IS. It is both identity itself and devoid of any identity.

Awakening to Divinity has many distinct movements, and each of those movements has sub-movements. This class manifests the first sub-movement, which cracks open the door for awakening further to Divinity.

Unlike most other awakenings, this one requires enormous energetic development, and so the class will need to create what is necessary for that, creating a huge movement of energetic empowering. This, along with the awakening itself, will also enable a new "power line" to manifested in students' system.)

There are 3 new meditation transmissions given in the class: "Breath of God", a visual Merlin mantra, and Divinity Arising. There is also a transmission for "Rift Fire", to help deal with infections (which becomes part of the composite *Fire* transmission); and there is a transmission called Merlin Bridge-In, which bridges Divinity into the human psyche and physical form. .

There are various inner movements in addition to the Awakening to Divinity. The most powerful of these is that the background noise in the psyche is turned down by about 50%, creating more inner stillness, and creating more space for the new awakening to shine through. The ReplW and Presence transmissions are deepened.

In addition, the underlying ego sense within the higher dimensions of the human psyche is awakened, and that awakening is then bridged through the 5th dimension. The awakening in the 5th D is an embodiment movement that brings a lot of dense light into the system.

Deepening in Divinity (7+ days)

Prerequisites: Awakening to Divinity

This class deepens the awakening to Divinity and embodies that, bridging the awakening through the human ego..

HEALING THREAD

Jewel (10 days)

Prerequisite: Genetics; Omega; Core Veil & Awakening to Being Awareness.

Jewel is like Omega in that you are using Merlin's Jewel, given in Multi-Frequency class, to do your healings. But as much of jump as Omega was over what came before, Jewel is an even bigger jump beyond Omega. With this class, you are able to use Merlin's Jewel at a much deeper level. And as with Omega, working with Jewel is simple and comprehensive—you mostly just channel Jewel for anything you are working on, and it generates whatever is needed from Merlin's Jewel to facilitate that. You use it to relax and center, to energize, to release, to do *BodyMind Wakeup*, even to do a much deeper form of genetics, and so on, greatly simplifying treatments.

Because of the awakening prerequisite now for Jewel students, you can now awaken various aspects of issues--most critically, identities. And you can awaken them, as well as emotional conditioning for the issue, in the 5th & 6th dimensions. An extension of this ability is the ability to break down and create blueprints at those higher dimensional levels.

You can now release conditioning in the karmic body about twice as fast as using Karmic Body Release, and you can release more subtle conditioning in the karmic body than was possible before as well. For the first time, you can also strengthen the body's constitutional energy. (Chronic diseases often arise due to weak constitutional energy).

The Interdimensional Vortex transmission, which in the past was given as a separate class, is now integrated into the Jewel transmission, and runs deeper as a result. In addition to being able to "transform the energetic quality of body-systems" more deeply, you can now "transform the cellular consciousness of organs and body systems". For instance, a genetic weakness may create a weak liver. One way to compensate for that weakness is by changing the cellular consciousness of the liver. Another key way to use this Jewel-technique is to transform the cellular consciousness of the brain. This creates a kind of rewiring effect in the brain. One example of this effect was seen when it was used on an autistic child: the next day he told the first joke he had ever told. Another example was seen when it was used on a child prone to sleepwalking: the sleepwalking stopped entirely. In Jewel class, another way of Reality Shifting (see its description in Omega & the Karmic Body, above) is taught, Reality Shifting 'from emptiness'. Almost all students can Reality Shift using this higher-level method.

One of the most unique special transmissions for this class is called "Vortex Therapy". This bridges in a 10th dimensional being who literally does therapy for emotional issues with the recipient of the healing. The being 'talks' directly to the recipient's consciousness, and the transformational effect of this helps and deeply complements the energetic and consciousness transformations created by channeling Jewel.

This class now incorporates all of what was a separate Jewel II class, which permanently hooks students up to the Angelic Divine Web. With the vital web of our energy system being fed by a second Divine web, our energy system jumps up in its energy level and its level of power. And this added 'juice' in the system enables us to 'rewire' the transmissions for Jewel and the Vortex Wheel, giving them more power to work with, which enables them to run deeper and faster.

All Jewel-class students receive 4 special structures into their system that will promote health and longevity. One brings more Jing into the system, one brings in more Chi, one brings in more Kidney Essence Chi, and one harmonizes all these together.

In addition:

- > You can also start to clear conditioning in fascia and biochemical pathways.
- > You can break down "mental body structures" which play an important role in holding the mental positioning of issues in place.
- > You can make energetic potions.
- > You can have Jewel emulate LifeForm, lovely for harmonizing and integration.

- > You can start to work on the vibrational system, a key for allergies as well as relationships.
- > You can work on the subtle organ system.
- > You can release 6th dimensional hooks.

Finally, there is also some way, because of how deep Jewel is, that as you use it, the very using of it pulls you deeper into oneness.

Angelic Heart II (3 days)

Prerequisite: Angelic Heart I; Core Veil & Awakening to Being Awareness.

This is a deepening of the power of Angelic Heart I. In addition, Angelic Heart Structures can now be made.

Note: Angelic Heart II & III may be given as a single 6-day class.

Angelic Heart III (4 days)

Prerequisite: Angelic Heart II; Core Veil & Awakening to Being Awareness.

This tremendously deepens the power of Angelic Heart II.

Q-Gate (5 days)

Prerequisite: Jewel; Core Veil & Awakening to Being Awareness.

Q-Gate, or Quantum-Gate, is an abbreviation for *Quantum-Point Matrix-Repatternner & Multi-D-Nexus-Gateway*. It is an energetic device that was constructed by the teachers of our lineage in 2006, using Ruunga Magic (another aspect of Merlin's divine magic, taught in Jewel class). The original Q-Gate was constructed to sit in the center of the earth, in the middle of our galactic ley line. For the Q-Gate Vortex class, a replica of this Earth Q-Gate will be created in your system, to be used for healing work on oneself and others.

The easiest way to understand the Q-Gate is to look at the different parts of its longer name. The Q or 'Quantum' part of the name represents the fact that at its very core is a quantum point, which is outside of causality, spanning dimensions and realms. This is the key to its functioning. The Q-Gate is also a 'Gateway' that you can use for traveling to other worlds and realms, and it is a 'Nexus-Connection' to a cosmic network of consciousness between civilizations and realms. The 'Matrix-Repatternner' part of the name refers to the fact that it does amazing healings by re-patterning life-matrixes at physical, emotional, mental and even consciousness levels. In other words, it does healing by 're-engineering reality'. This is very different from all other VortexHealing tools.

Once the Q-Gate is established in the system, the Jewel transmission is then upgraded to become Quantum Jewel. This increases Jewel's ability to release and re-pattern by about 10%.

You also receive transmissions for doing Ruunga Divine Magic, which is a completely different branch of Merlin's divine magic, taught in other parts of the universe, and was the magic behind the Q-Gate. Ruunga works with its own structure of energy and divine consciousness. You can channel Ruunga Divine Magic in general, and with Ruunga structures and symbols, which bridge in particular energies, patterns and intentions.

Merlin's Grace & Multi-Dimensional Healing (11 days in 2019)

Prerequisite: Jewel; Being-IS, Universal Veil & LCF.

This class combines a class that was called Multi-dimensional Jewel with its follow-on class, Merlin's Grace. That makes its depth and power two very large jumps beyond what could be done with Jewel. The transmissions generate a new multi-dimensional form of Jewel, called Meta-Jewel, which bridges Divine intelligence into the Jewel in a much deeper way, giving it more focus, deeper penetration, and the ability to micro-manage the flow of the healing energy. The Truth aspect of Meta-Jewel receives an even deeper upgrade, and the Meta-Jewel receives the Vital Web Blaster transmission, which deeply enhances Meta-Jewel's ability to clear all levels of conditioning within vital webbing. A heat aspect of this 'blaster' is also added, which is fantastic at burning out infections. Once all this is in place, a new transmission, Merlin's Grace, is brought in, which automatically combines Meta-Jewel and all the different Vortex energies, along with "running Divine lines" into a single, higher-level transmission, filled with profound Divinity and grace. A completely new level of healing tool is created, which has its own Protocol for working on issues. You can directly release identity with issues on every level of the system and consciousness, including on the genetic level. You can work through the 10th dimension now, getting to higher dimensional blueprints in the 7th & 8th dimensions and clearing conditioning at those levels and deeper. And on an energetic level, the constitutional energies can now be re-generated in reasonable time.

One of the most advanced Merlin's Grace techniques is Reality Rifting, which enables you to access 'multiple-reality possibility' and channel into the receiver's system other 'possible' versions of that person—versions that don't have the symptoms being treated.

The most mind-boggling Merlin's Grace technique is its ability to release 'Reality Streams' from the system's Assemblage Point. If you think of your reality as a gestalt of millions of separate streams of reality (as in 'streams of consciousness'), and you imagine that these are assembled into a single coherent reality for you by a structure in your energy field called an Assemblage Point, then you can imagine what being able to clear individual reality streams can accomplish for creating transformation in your system.

In addition, you can now work on the various "intelligence fields" of the body (the Jin Shin intelligence field, immune system intelligence field, and bodymind intelligence field); you can re-network the brain, the immune system, and various body systems; you can work on the Luminous Egg aspect of the energy system; you can get very deep into the vibrational system--a key for allergies and relationships; you can awaken issues; you can transform the genetic brain; you receive special anti-Lyme and anti-Herpes transmissions, you can "replace vital webbing", which speeds the release of deep, dense emotional charges; and much, much more.

Although this is a healing class, to create the Merlin's Grace transmission, a deep level of Grace must be interfaced through the system, which deeply feeds the awakening process. In addition, because of the energetic level of development needed to receive these transmissions, the class deeply evolves the energy system.

(Note that a significant upgrade to Merlin's Grace is given in the *Awakening the BodyMind and its Nervous System* class.)

Earthworks III: Rifting Divine Doors & Funnels (6 days)

Prerequisite: Earthworks II; Merlin's Grace; I-Point and Duality of Awareness & Consciousness.

In this class we take advantage of the extra development of your energy system from the Merlin's Grace level training, and the deepening into awakening from I-Point, to enable you to manifest deeper Divine Door and Earth-Work Structures.

- **Rifting Divine Door:** This Door Rifts! (See the Merlin's Grace description for an explanation of Rifting.) It clears conditioning built up and imprinted onto the fabric of the vital web (mostly from human consciousness), and it re-orientes possible realities, shifting more beneficial possibilities into manifestation. It also bridges in Divine heart. These new Doors are incredibly powerful. Although Divine Doors usually only need one student to make, these will take four students (or three who have completed Awakening the BodyMind) working together to manifest one.
- **Divine Doors become denser and fully multi-dimensional.** There is a new level of higher dimensional blueprinting added into each Divine Door. This enables the Divine Door to have a stronger, more direct, and more complex effect on structures of human consciousness.
- **Divine Stream (DS):** This is an advancement from Divine doors. It enables you to bridge any Divine door deeper into Dimensional Space, so that it becomes more like a stream of Divine consciousness.
- **Creating a Divine Door at a distance.** A group of at least four students (or three who have completed BodyMind) working together will be able to bridge the manifestation of an Earth-Work structure to a different location on the earth.
- **Also in class:** Dense Nature-Magic structures and Vortex-Spaces, Deeper Puja, Grace funnels and astral clearing.

Utilizing the Universal AP

This is our next level healing tool, after Merlin's Grace, given in the Original Veil & Universal AP class.

The Universal AP (Assemblage Point) is responsible for the manifestation of reality in our area of creation. The transmission uses Merlin's divine energy and consciousness as a bridge to the Universal AP, where we can intend for creation to have a different manifestation—for our issues, for our organs, etc. This works about seven times faster than Merlin's Grace and 30% deeper. What it can do—and the speed with which it can do it—is truly phenomenal. But it is more than an upgrade to Merlin's Grace; it is really a completely new paradigm in healing.

Angelic Heart IV (4 days)

Prerequisite: Angelic Heart III; Original Veil.

This is a deepening of Angelic Heart III, with some new additions. You will get a transmission for channeling Angelic Harmonies, and you will be able to make Angelic Merkabas, which generate a blessing energy. This class will be given for the first time in 2019.

Accessing The Manifesting Intention (12 days)

Prerequisite: Awakening to Divinity.

This is our highest-level healing tool. It accesses the manifesting intention of Divinity as it arises within creation. Working with this transmission is like immersing yourself in the Divine creative presence within creation. Most of the work is through ‘re-manifesting’ whatever is being worked on.

At the very beginning of the creation of an issue in this life, where the personality first identifies with that, there is a moment where the shift happens, which we call a ‘choice point’. With ‘MI’, you can now re-manifest those choice points. You can also channel compressed Chi in all the varieties the body needs, work on the core of the Jin Shin system, which is the foundation of our energy system, and clear the Personal Karmic Field (in someone with no Core Veil).

Every issue is held as a network in the system, and all of these together form a ‘network of networks’, which helps hold everything within it in place. With MI, you can also break down this ‘network of networks’. And just as in Merlin’s Grace, students received a transmission for ‘Replacing Vital Webbing’, now you can also ‘Replace Consciousness’, which gets deeper into the samskaras of conditioning at every level than anything else.

The transmission for this class is like a deep embodiment class for Awakening to Divinity.

*

Note: Because VortexHealing is run by Divine consciousness, it can only be used for positive purposes.

VortexHealing classes are open to all interested adults. Teenagers and children are accepted on a case-by-case basis. No discrimination is made based on race, creed, color, religion, or sexual orientation. Those with physical disabilities need to check with the local venue as to whether their needs can be accommodated.

® "VortexHealing" is a registered service mark of R. Weinman VH Trust. All rights reserved. Used here with permission.
